

Assembling **AC-111EX**

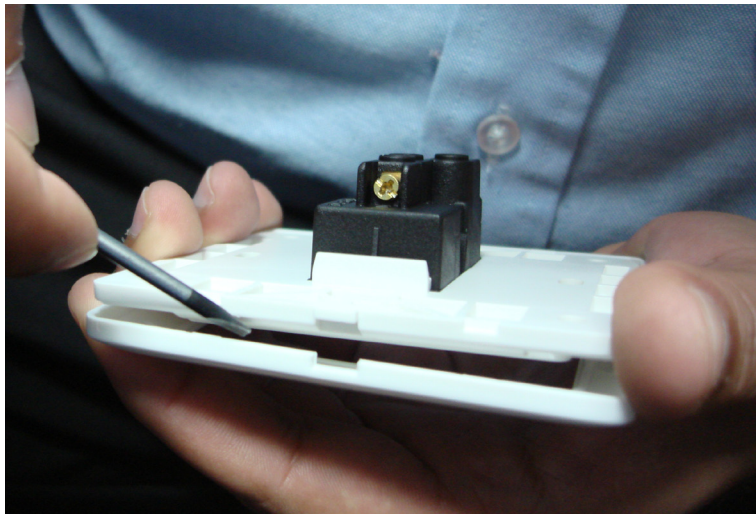

1 - What do you need:

AC-111EX , 1 Phillips Screwdriver, 1 Small Slot Screwdriver, Screws Bag

2 - Remove the front frame:

Remove the front frame from the AC-111EX using the Small Slot Screwdriver

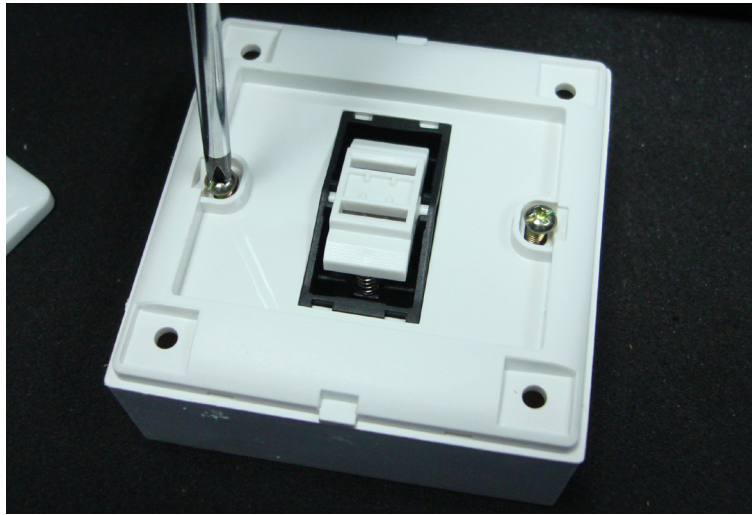

3 - Remove the Push Button:

Remove the push button from the base using the Small Slot Screwdriver really carefully.

4 - Screw the base to the Box

Place the base of the button over the box and use the Phillips Screwdriver to screw the 2 screws included in the bag.

4 - Assembling all together:

Apply a little pressure to place the button back in position and then the frame.
